THE IMPLEMENTATION OF KATARUNGANG PAMBARANGAY JUDICIAL SERVICE SYSTEM IN MANDALUYONG CITY: BASIS FOR POLICY RECOMMENDATION

Rowena A. Pila, DPA Faculty Member, Rizal Technological University

ABSTRACT

Katarungang Pambarangay is the process to keep the community intact and to improve access to justice for the poor. This study purported to analyse the effectiveness of the Katarungang Pambarangay in Old Zaniga and Barangka Ilaya of Mandaluyong City in the disposition of cases that were filed from 2015 to 2016. The respondents of the study were the 20 Lupon tagapamayapa and secretaries of the offices of barangays Barangka Ilaya and Old Zaniga of Mandaluyong City.

The approaches include qualitative analysis of data generated from documents particularly the Lupon Tagapamayapa report on case filed, actions taken and problems encountered in the implementation of Katarungang Pambarangay Judicial Service System (KPJSS), a focus group discussion (FGD) was conducted among Baranggay Captain and Lupon members in Barangka Ilaya and Old Zaniga and the data collected was evaluated using percentage and weighted mean. It also used a 5-point Likert scale to determine the extent of effectiveness of the implementation of KPJSS in terms of the nature of cases in Barangay Barangka Ilaya for 2015 to 2016.

The findings of the study revealed, it is encourage continuing intensified information dissemination on the basics of the Law on dispute settlements to arouse peoples' consciousness on the intentions, objectives of the law – triggering and motivating them to realize its importance and render civic duty. Moreover, The Local Government should provide an in service – training among Lupon members to be more effective in handling disputes among the complainants in Mandaluyong City. Finally, the Department of Interior and Local Government should look into the improvement of dispute settlements and the updating of existing system's policies of Local Government Code of 1991 in providing a more effective and efficient in delivering speedier and quality justice through non- adversarial for the security and welfare of the community.

Keywords: Effectiveness, Katarungang Pambarangay, Lupon Member, Local Government Code of 1991

Introduction

As observed in the Philippine Court system, there were overload and backlog that need for a judicial reform that affects especially the poor who are seeking for alternative dispute resolution (ADR) to address their issues and problems. Thus, the Congress was discussing an alternative Dispute Resolution to achieve speedy trial, impartiality and non-adversarial justice which engage active private sector participation in the administration of justice. The Barangay Justice System (BJS) or the Katarungang Pambarangay (KP) was institutionalized through Presidential Decree 1508, promulgated in 1978, and the Local Government Code of 1991 as a strategy for improving and making the justice system more responsive to the needs of communities. This is also the result of a challenging devolution of powers and functions from the central government too the barangays, and represents the only decentralized justice program that has been legally and politically recognized.

Kkatarungang Plantharangay is a highly structured grass-roots community mediation process seeking for quality justice by reducing congested court dockets. The unique characteristics off Kkatarungang Plantharangay among other nation can be classified into three aspects: It utilizess three mediators, whereas most mediation relies upon one (Gill Marvel P. Tabucanon 2008).

On the other hand, the establishment of Katarungang Pambarangay Judicial Service Systems (KBJSS), due to the following reasons: Human failings in administering the judicial system such as judges, llawyer-advocates, court personnel, process, sheriffs, defense counsel, process servers, and others connected to or with the system. Delayed resolution of cases emanates from imefficiency, incompetence, sloth or laziness, corruption or conflict of interests of these officials; (Constitutional requirements of due process of law also cause judicial delays (fladiar, Alfredo, 1999).

In the implementation of barangay Judicial Service System (BJSS) in the community, everyy continuous control of the services of the Lupon and with the support of Barangay Captain to resolve the issues or conflict among the complainants (Gerry Roxass Foundation, 11999). Based on the 2015 census of population the City of Mandaluyong was considered as the second fastest growing Highly Urbanized City (HUC) in the National Capital Region, there is a need to maintain peace and order to attract businesses and to preserve the quality of life of the local residents.

Since one of the roles of Katanungang Pambarangay is the process to keep the community intact t and t to improve access to justice for the poor in a less expensive litigation. Thus, the researcher cendeavoured to analyse the disposition cases for the two (2) barangays in Mandaluyong City that were filed from 2015 - 2016.

Statement of the Problem

This study purported to analyse the effectiveness of the Katarungang Pambarangay of Oldd Zaniga and, Barangka Illaya Mandaluyong City in the disposition of cases that were filed from 2015 to 2016.

INTERNATIONAL REVIEW OF HUMANITIES AND SCIENTIFIC RESEARCH By International Scientific Indexing ISSN (Online): 2519-5336

Specifically, the study was guided of the following research questions.

- 1. What are the prevalent cases filed in the Katarungang Pambarangay in Old Zaniga and Barangka Illaya in 2015 to 2016 that categorized in terms off:
- 1.1. Criminal;
- 1.2. Civil
- 2. What is the nature of action taken of the Lupon members in Old Zaniga and Barangka Ilaya in the disposition of cases filed from 2015 2016 in terms of?

- 2.1. Closed:
- 2.2. On Going
- 2.3. Pending Case
- 2.4. Filed in Court
- 2.5. Dismissed
- 2.6. Settled
- 2.7. Mediated
- 3. What is the extent of effectiveness of the implementation of KPJSS in terms of the actionss taken in the cases in Old Zaniga and Barangka Ilaya, Mandaluyong City in the disposition of cases filed from 2015 to 2016 in terms of?
- 3.1. Closed:
- 3.2. On Going
- 3.3. Pending Case
- 3.4. Filed in Court
- 3.5. Dismissed
- 3.6. Settled
- 3.7. Mediated
- 4. What are the challenges encountered by the Katarungan Pambarangay in the implementation of the program in terms of?
- 4.1. Judicial procedure
- 4.2. Human competency, and
- 4.3. Budget
- 4.4 average numbers of months in resolving cases
- 5. What intervention strategies maybe forwarded for a more effective implementation of the Katarungang Pambarangay program?

Research Method Used

This study utilized the descriptive method of research. This method is the most appropriate once to describe the current conditions, practices and disposition of the Lupon Tagapamayapaa ((conciliation committee) in settling cases.

The approaches include qualitative analysis and interpretation of data generated from documentss of Lupon Tagpamayapa reports of case filed, actions taken and problems encountered off Katarungang Pambarangay (KP) implementation in Barangay Barangka Ilaya and Old Zaniga during the years 2015–2016. Likewise, it also used quantitative analysis through Focus Groupo Discussion (RGD) with the Lupon members and staff of barangay offices.

Description of the Respondents

The respondents of the study were the 20 Lupon tagapamayapa and secretaries of the offices of barangays Barangka Ilaya and Old Zaniga of Mandaluyong City. When all were

INTERNATIONAL REVIEW OF HUMANITIES AND SCIENTIFIC RESEARCH By International Scientific Indexing

ISSN (Online): 2519-5336

Barangay Captain and Lupon members. FGDs were preferred to that one — on — one interviews as theres simultaneous walidation and checking of documents gathered for two barangays.

Data Gathering Procedure

Illncorder to examine the implementation of Katarungang Pambarangay Judicial Service System (KPJSS) in Mandaluyong City, the researcher distributed letters asking for permission to collect

INTERNATIONAL REVIEW OF HUMANITIES AND SCIENTIFIC RESEARCH By International Scientific Indexing

ISSN (Online): 2519-5336

ddata, addressed to the barangay offices that possess pertinent data. The researchers then waited from their confirmation in collecting the available data and critically analysed the data gathered.

Statistical Treatment of Data

The data gathered from the barangay office were analysed and interpreted. The data were treated using the following statistical tools:

1. Percentage (%)

Precentage is a part of a whole expressed in hundredths. This was used to determine the demographic profile of the respondents in terms of gender, age, civil status and educational attainment. This was also used to determine the number of cases that was pending, on-going, closed, dismissed and filed on court. The formula is:

$$% = F/N \times 100$$

Where

% = is the computed percentage;

F = is the frequency or number of cases; and

N = is the total number of cases.

2. Weighted Mean

Weighted average is an average in which each observation in the data set is assigned or multiplied by a weight before summing to a single average value. This statistical treatment was applied to determine the extent of effectiveness of the implementation of KPUSS in Mandaluyong City using the following formula:

$$\bar{X} = \sum \frac{fx}{n}$$

Where

 \bar{X} = mean value

 \sum fx = summation of frequency times weighted value

n = number of cases

3. Likert Scale

All likert Scale is a type of rating scale used to measure attitudes or opinions. It was used to iinterpret the over-all extent of effectiveness of the implementation of KPISS in Mandaluyong City.

Weighted Mean	Interpretation
1.00-1.80	Not Effective
11.81-2.60 2.61-3.40	Slightly Effective Moderately Effective
3.41-4.20	Effective
4.21-5.00	Very Effective

Educational		
Attainment		
Elementary	0	0%
High School	0	0%
College	6	30%
Postgraduate	14	70%

Thable 11 shows the distribution of respondents according to gender, age, civil status and educational attainment.

Interms of gender, it shows that both genders were distributed equally having frequencies off 10 or 50% respectively.

Uniterms of age, majority (10) or 50% of the respondents' age was between 411 to 500 years old; 8 or 40% of the respondents' age was between 31 to 40 years old; while only 2 or 10% off the respondents' age were 51 years and above. No respondents came from the age group of 16 to 20 and 21 to 30 years respectively.

Uniterms of civil status, majority (12) or 60% of the respondents was married; 5 or 25% of the respondents was widowed and 3 or 15% of the respondents was single.

Interms of educational attainment, majority (14) or 70% of the respondents were postgraduatee white 6 or 30% of the respondents were college graduates. No respondents were elementary and high school graduates respectively.

INTERNATIONAL REVIEW OF HUMANITIES AND SCIENTIFIC RESEARCH By International Scientific Indexing ISSN (Online): 2519-5336

Coloserscrutiny of the data presented in the table majority of the respondents is college graduatee. It showed ucational attainment was given preference by the barangay captain in the selection and appointment of Lupon members.

PROBLEM#1

Table 2. The prevalent cases filed in the Katarungang Pambarangay in Barangka Ilaya for C.Y. 2015 to 2016 that categorized in terms of: Criminal and Civil.

Nature of Cases	Nature of Cases in Brgay Ilaya C.Y. 2015		Nature of Cases in Brgay Ilaya C.Y. 2016	
	Frequency (F)	Percentage (P)	Frequency (F)	Percentage (P)
Criminal	56	64.37%	48	51.61%
Civil	31	35.63%	45	48.39%
Total	87	100%	93	100%

As shown in the table, 56 or 64.37% of the cases were criminal cases while 31 or 335.63% of the cases were civil cases. The total number of cases for 2015 was 87 cases. It could be seen that there were more criminal cases as compared to those of the civil cases.

Assshownconthettable, 48 or 51.61% of the cases were criminal cases while 45 or 4839% of the cases were civil cases. The total number of cases for 2016 was 93 cases. The common cases elevated in Barangay Lupon were physical injury, threats, theft, orall defamation and collecting of debts.

Table 3. The prevalent cases filed in the Katarungang Pambarangay in Old Zaniga in 2015 too 2016 that categorized in terms of: Criminal and Civil.

Nature of Cases	Nature of Cases in Brgy. Old Zaniga C.Y. 2015		Nature of Cases in Brgy Old Zaniga C.Y. 2016	
	Frequency (F)	Percentage (P)	Frequency (F)	Percentage (P)
Criminal	86	98.85%	0	0%
Civil	1	1.15%	99	100%
Total	87	100%	99	100%

Assistion on the table, 86 or 98.85% of the cases were civil cases while only 1 1115% off the cases were criminal case. The total number of cases for 2017 was 87 cases. Closers crutiny off the data presented in the table would reveal that, the civil cases has a big number of cases as compared to criminal cases, due to Old Zaniga is more peaceful area in Mandaluyong City.

As shown on the table, all of the 99 cases were civil while there were no criminal cases. Obviously, the total number of cases for 2016 was 99 cases. The researcher noticed the common cases elevated in Barangay Lupon were damages to property, collection of debts, rentable

PROBLEM #2

Table 4. The nature of action taken of the Lupon members in Barangka Ilaya in the disposition of cases filed from 2015 – 2016 in terms of Closed; On – Going; Pending Case Filed in Court and Dismissed

Action Taken	Nature of Cases in Brgy. Ilaya C.Y. 2015		Nature of Cases in Brgy Ilaya C.Y. 2016	
	Frequency (F)	Percentage (P)	Frequency (F)	Percentage (P)
Closed	28	32.18%	23	24.73%
On-Going	7	8.05%	22	23.66%
Pending	24	27.59%	18	19.35%
Filed On Court	27	31.03%	18	19.35%
Dismissed	7	8.05%	12	12.90%
Settled	1	1.15%	93	100%
Total	87	93	180	100%

Table 4 shows the nature of action taken of the Lupon members in Barangka Ilaya in the disposition of cases filed from 2015 – 2016 in terms of Closed; On – Going; Rending Case Filed in Court and Dismissed.

As of 2015, 28 or 32.18% of the cases were closed; 27 or 31.03% of the cases were filed in Court; 24 or 27.59% of the cases were pending; 7 or 8.05% of the cases were on—going; while conly 1 or 1115% of the cases was settled. The total number of cases for 2015 was 87 cases.

On the other hand, as of 2016, 23 or 24.73% of the cases were closed; 22 or 23.66% of the cases were on-going; 18 or 19.35% of the cases were both pending and filed on court; while 12 or 12.90% of the cases were dismissed. The total number of cases for 2016 was 93 cases.

The data imply, Barangay Illaya encountered more cases because this is one of the denselyy populated areas in Mandaluyong City. In addition, there is lack of orientation among the complainant/local residence in filling complaints and that is the reason of several pending cases and simultaneous hearings three to four cases every day. The area is not conducive to assmooth hearing atmosphere.

Table 5. The nature of action taken of the Lupon members in Barangay Old Zaniga in the disposition of cases filed from 2015 – 2016 in terms of Closed; On – Going, Pending Case Filed in Court and Dismissed

	Barangka Ilaya 2015-2016		Old Zaniga 2015-2016

Filed On Court	0	0	0	0

Dismissed	0	0	0	0
Mediated	0	0	40	40.40%
Total	87	100%	99	100%

Table 5 presents the nature of action taken of the Lupon members in Barangay Old Zanigarin the disposition of cases filed from 2015 – 2016 in terms of Closed; On – Going; Pending Case Filed in Court and Dismissed.

As shown in the table as of C.Y. 2015, 77 or 88.51% of the cases were closed while 100 or 111.49% of the cases were pending. The total number of cases was 87 cases.

While as of C.Y. 2016, 59 or 59.60% of the cases were closed while 40 or 40.40% of the cases were mediated. The total number of cases was 99 cases.

Moreover, based on the table in Barangay Old Zaniga are fewer cases elevated in Barangayy Luppon because Barangay Tagapamayapa disseminated the information in hearing cases and conduct orientation among complainants to foster peace and order and lessen conflict among their neighbors, thus the reason for the speedy disposition of cases. In addition, majority of the local residents in Barangay Old Zaniga are well offi.

PROBLEM # 3
Trable 6 Extent of Effectiveness of the Implementation of KPJSS in Terms of the Actions Taken
con the Cases filed in Barangka Ilaya and Old Zaniga for 2015 and 2016

Barangay	Actions Taken	WM	Interpretation
	Closed	1.80	Not Effective
	On Going	1.75	Not Effective
	Rending	1.63	Not Effective
	Filed In Court	1.59	Not Effective
	Dismissed	1.25	Not Effective
	Settled	1.72	Not Effective
	Mediated	1.79	Not Effective
	Closed	2.55	Slightly Effective
	On-Going	2.43	Slightly Effective

	Filed In Court	1.96	Slightly Effective
	Dismissed	1.85	Slightly Effective
	Settled	2.39	Slightly Effective
	Mediated	2.47	Slightly Effective

Table 6 shows the extent of effectiveness of the implementation of the KPISS in terms coff the actions taken on the cases in Barangka Ilaya and Old Zamiga from 2015 to 2016. Assouldd be seen on all the actions taken on the cases in Barangka Ilaya, all the interpretations were not

INTERNATIONAL REVIEW OF HUMANITIES AND SCIENTIFIC RESEARCH By International Scientific Indexing ISSN (Online): 2519-5336

eeffective. As could be seen on all the actions taken on the cases in Old Zaniga, all the interpretations were slightly effective.

The data imply majority of the cases are slightly effective due to there was no designated room in the Barangay especially for Lupon Hearings. Since, Barangay Barangka Ilaya is cone of the densely populated areas; there were simultaneous hearings three to four cases every day wherein the area is not conducive to a smooth hearing atmosphere. In addition, there is slack of

ISSN (Online): 2519-5336

correctation among the complainant/ local residence in filing complaints and that is the reason of several pending cases. The Lupon Tagapamayapa did not receive any incentive/ honoria since them absent on their work even majority of them are professional i.e., teacher, private employee etc.

PROBLEM#4

Table 77 is the summary of the challenges encountered by the Katarungang Pambarangay in the Implementation of the program in terms of judicial procedure, human Competency and Budgets. It is clearly seen, both respondents seeking for financial support for the operation of the kkatarungang Pambarangay and the enhancement of venue to a smooth and peaceful hearing atmosphere.

INTERNATIONAL REVIEW OF HUMANITIES AND SCIENTIFIC RESEARCH By International Scientific Indexing

ISSN (Online): 2519-5336

Interms of the average number of months for the Katarungang Pambarangay in resolving cases filed. Evidently, the data presented Barangka Ilaya is more than a month in settling dispute compare to Oldd Zanigadue to the location is one of the densely populated area in Mandaluyong City.

PROBLEM # 5

Table 8 The Intervention Strategies for a more Effective Implementation of the Katarungang

Intervention Strategies for a more effective implementation of the katarungang Pambarangay Program

- 1. In-service trainings for the Lupon member with emphasis on legal procedures and decision-making for settlement of disputes.
- 2. Providing an extension program for law students helping communities to an independent judicial procedure.
- 3. Additional honoraria for the Lupon members for their services in supervising conflict among the complainants.
- 4. Enhancement of the venue in resolving the cases to provide peace and order in the community.
- 5. Intensified information dissemination on the basics of the Law on dispute settlements among the local residents within the community.

Pambarangay Program

TTable 88 shows the summary of the intervention strategies for a more effective implementation of the Katanungang Pambarangay program. It highlighted the deficiencies of the Local Government Units (LGUs) in the implementation of the Katarungang Pambarangay Judicial Service System thus, It thigh time to revised the Local Government Code of 1991 in providing a more effective and efficient in delivering speedier and quality justice through non-adversarial under Local Government Units (LIGUs)) for the security and welfare of the community.

CONCLUSIONS AND RECOMMENDATIONS

Both of the genders were equally distributed equally with frequencies of 10 or 50% of the population respectively. Majority of the respondents' age were 41 to 50 years old with frequency of 10 or 50% of the population. 12 or 60% of the respondents were married. Majority of the respondents were postgraduate, with frequency of 14 or 70% of the population.

Idn Barangka Illaya, the common cases elevated in Barangay Lupon were physical injury, threats, theft, oral defamation and collecting of debts, while in Barangay Old Zaniga were damages to property, collection of debts, rental collection and family problem.

In the implementation of the KPISS in terms of the actions taken on the cases in Barangka Ilaya and Oldd Zaniga from 2015 to 2016. As could be seen on all the actions taken on the cases in Barangka Ilaya all the interpretations were not effective. As could be seen on all the actions taken on the cases in Oldd Zaniga, all the interpretations were slightly effective. The researcher noticed the following observations for the overlapping of hearing sessions: there was no designated room for Lupon Hearings for both bharangay. Since, Barangay Barangka Ilaya is one of the densely populated areas that caused simultaneous hhearings three to four cases every day wherein the area is not conducive to a smooth hearing atmosphere.

Idnaddition, there is lack of orientation among the complainant/ local residence in filing complaints that to caused several pending cases. In attending hearing cases, the Lupon Tagapamapayapa were absent to not their work consonetimes were not complete during hearing sessions but majority of them are professional i.e., teacher, private employee etc.

The researcher encourage to continuous intensified information dissemination on the basics of the Llawwoon dispute settlements to arouse peoples' consciousness on the intentions, objectives of the laww—triggering and motivating them to realize its importance and render givic duty.

INTERNATIONAL REVIEW OF HUMANITIES AND SCIENTIFIC RESEARCH By International Scientific Indexing

ISSN (Online): 2519-5336

On the other hand, the Local Government should provide an in service — training among Lupon Tagapamayapattobe more effective in handling disputes among the complainants in Mandaluyong City. Furthermore, the Local Government should provide a separate room during hearings and horaria among Lupon Tagapamapayapa. Finally, The Department of Interior and Local Government should look into the improvement of dispute settlements and the updating of existing system's policies of Local Government Code of 1991 in providing a more effective and efficient in delivering speedier and quality justicee through non-adversarial for the security and welfare of the community.
